

The comrades of CARC Party greet the 9th Congress of Rebell, that proves to be a great experience of youth mobilization in Europe.

Our Party has not yet a structured youth bureau, even though more and more young comrades approach us and at several levels join our activities for making Italy a new socialist country and for the rebirth of international communist movement.

Just yesterday a great demonstration was held in Rome for supporting Palestinian people, tens of thousands of Italian and immigrant youth went in the streets withÂ internationalist solidarity within their heart and with a great determination to prepare the great demonstrations of next future against imperialism, racism, fascism and exploitation.

Hundreds of thousands of young people were demonstrating until few weeks ago for rejecting the attempt of public schoolâ€™s dismantlement. And in whole Italy, demonstrations of solidarity towards the Greek youth came after.

All this demonstrates how it is really important that Communists be at the head of the aspirations, the feelings and the mobilization of youth, because the conscious organized communistÂ movement is the only really prospective so that everyone of this youth and, together with them, all the popular masses and the working class, unite their forces for making another possible and necessary world, the socialism.

In this regard, we look at your organization with trust and as an example from which we can draw experience and teachings.

The bourgeoisie wants popular massesâ€™ youth brutalized, despaired, confused and weak, in their body and spirit.

The communist movement gathers and improves them for making them protagonists of history, for giving them responsibilities, for making them able to change the world.

We rally around you, to the youth of popular masses in imperialist countries, to the youth of the oppressed, to the youth that raise their head and the flag of collective emancipation, because these are the forces, the new blood that runs in the arteries of history, that will conquer the world that pertains to the popular masses and to the working class.

**Long live Rebell!**

**Long live MLPD!**

**Long live class and internationalist solidarity!**

**Long live CARC Party!**

**Long live (new) PCI!**

**Long live the rebirth of international communist movement!**
