

MARXIST LENINIST COMMUNIST PARTY

**MLKP**

**Turkey/Kurdistan**

**Message for th 5<sup>th</sup> Congress of P. CARC**

Dear comrades,

As the revolutionaries and communists of the world, we have been witnessing a historical period in the world's political scene. Just looking at the resistances of last months proves once again that the world capitalism in a deep crisis, in an existential crisis. Accumulating on top of each other, these political, economical, ideological and ecological crises of the imperialist capitalism put historical tasks on us, as the vanguards of the working class and the oppressed of the world, on the path towards revolution, which can trigger one another and occur as regional revolutions in today's imperialist globalization stage of the world capitalism. That is why, as a sign of central democratic functioning, each party congress for communists is a great opportunity to grasp these historical tasks.

We have read your resolutions and general declaration that you share and would like to congratulate you on these detailed documents which evaluate and explain the political situation and your parties stances on each matter. The bourgeois politics in Italy as the ones in other countries has been decaying along with its institutions. The rise of the fascist parties and movements has become one of the most urgent topic for the revolutionaries and Italy and Turkey are no exceptions. The fascist siege around our peoples can only be broken with a consistent, sacrificing and unyielding antifascist struggle. As you also analyze, the people of the world have been uprising once again in a continuous way, as the Yellow Vests in France, as the Women's Marches all around the world, as antifascist struggles in Italy and Germany, as the hunger strike resistance against Erdoğan dictatorship in Turkey and Kurdistan, as organized self-defense forces in Rojava revolution, as revolutionary struggles in India and Philippines and as the political and economical uprisings of the proletariat of Sudan, Tunisia, Iran and so on. The practical common work for the struggles to expand is more necessary and essential more than ever. And we hope your party congress will be one step in this way along with the significance in your struggle in your country and for the international revolutionary movement.

We salute your 5<sup>th</sup> party congress as communists from Turkey and Kurdistan. We wish you a successful and fruitful congress which will help you leap forward with a refreshed revolutionary spirit.

Glory to the 5<sup>th</sup> party congress of CARC!

Long live the united struggle of the revolutionaries of the world!

Long live proletarian internationalism!

Long live the world socialist revolution!
